WE DO NOT STOP UNTIL OUR CLIENTS ACHIEVE THEIR LEVEL OF SUCCESS!

MISSION STATEMENT

We are coaching experts with over 30 years of experience providing top-quality personal, professional development and coaching services to women (and men alike) who are ready to stretch their imagination to achieve great success. We believe that most people, small businesses and entrepreneurs suffer two major problems: They lack training or development resource and the depth of knowledge needed to focus on their businesses from a true "ownership" perspective. Both lead to lowered expectations, lack of business and personal growth and frequent owner burnout. Our mission is to help clients develop the strategy, motivation and accountability required to succeed in their businesses, places of work and personal lives.

OUR FOCUS

Our focus lies in the following areas: Personal Growth & Advancement, Business Planning, Innovation Strategy for the 21st Century Person or Organization, Professional development, Strategic Conferences & Workshops, One-on-one Coaching and special project relationships. Our Demand Coaching (for time restricted clients) includes but is not limited to, private and objective business or professional coaching, "on-demand," access to coaching via phone/email. Special Projects include strategic business planning and implementation, leadership development, people management and systematizing businesses.

OUR VISION

We are Confidential, Reliable, and Trustworthy. We also use state-of-the-art technology to train our clients. We are using our life experiences, challenges and successes to help other women (men alike) to achieve and write their success stories. Our Vision is to raise up Authentic Leaders, who are living their best lives be it in their businesses, at their homes and/or in the corporate arena. (home-makers, recent graduates looking for opportunities, small business owners, start-ups, managers and entrepreneurs ALL INCLUDED).

"You are one click, one registration, and one attendance away from totally changing your mindset and your opportunities. So, why put away the decision you can make today for tomorrow?"

OUR UNIQUENESS

Our uniqueness from other coaching organization is that with everything from our coaching system, conference and/or seminar, we are creating a unique, upscale, innovative environment that is differentiating us from others. Our learning environment brings people with diverse interests and backgrounds together in a common forum to overcome challenges both professionally and personally.

Every contract we sign with a potential client is seen as an agreement not between a business and its clients, but between partners who wish to create a close and mutually beneficial long-term relationship.

Let's Go Innovate ~AFRICA

Many have asked us when it would be Africa's turn to experience the phenomenon, Let's Go Innovate.... HERE IT IS!

Our goal is to use education & technology to impact Africa, one community at a time. What others have consistently enjoyed in the US through our company and the work we do individually, we are ready to share with AFRICA. In the advent of many infra-structural breakdowns and several political instabilities, LET'S GO INNOVATE AFRICA is a movement that seeks to empower (men, women and African youths) to TAKE BACK THEIR VISION! Africa can no longer wait on the sidelines for their leaders to do the right thing. We are dedicated to helping our brothers and sisters to gain independence and to help move Africa into her predestined position~ A GIANT AMONGST GIANTS. There are so many untapped resources begging to be tapped, so many opportunities rotting away in Africa... so many being sold off ignorantly. It is time for AFRICA... It is time for her children to be lifted up.... Let's Go Innovate AFRICA is bringing educational tools/ programs to Africa... to help change mindsets and cause people to make a change in their own communities. We are not a funding organization but a US based organization who will help you to think deeper and better into finding solutions to your plight.
